Wild Kratts-Mosquito Dragon.mpeg

Rating: This title has not yet been rated. ([rate title](#))

Media: H.264

Running Time: 26 min 16 sec

Grades: Pre-K to Adult

Why Do Mosquito Bites Itch?

Rating: This title has not yet been rated. ([rate title](#))

Media: Web Link Video

Running Time: 3 min 20 sec

Grades: K to 5

This video from SciShow Kids explains that the itch from a mosquito bite is a symptom of the immune system protecting the body from the chemicals left behind by the insect.

7th Grade:

Loathsome, Lethal Mosquito, The

Rating: This title has not yet been rated. ([rate title](#))
Media: Web Link Video
Running Time: 2 min 40 sec
Grades: 7 to Adult

This TED-Ed lesson by Rose Eveleth explains the reasons why mosquitos are the most hated insect on the planet. Mosquitos suck up to three times their weight in blood, usually undetected. Also, they carry diseases, like malaria, that kill over a million people, plus many animals, each year. However, scientists are not sure if mosquitos should be eliminated because the possible results of doing so are unknown.

What if We Killed All the Mosquitoes?

Rating: This title has not yet been rated. ([rate title](#))
Media: Web Link Video
Running Time: 5 min 1 sec
Grades: 6 to Adult

This video from [SciShow](#) discusses the question of whether it would be possible, or even wise, to kill all mosquitoes in the world, or perhaps only those that infect humans.

High School:

Life Cycle of a Mosquito

Rating: This title has not yet been rated. ([rate title](#))

Media: H.264

Running Time: 4 min 1 sec

Grades: 9 to 12

This brief clip discusses the life cycle of a mosquito.

What if We Killed All the Mosquitoes?

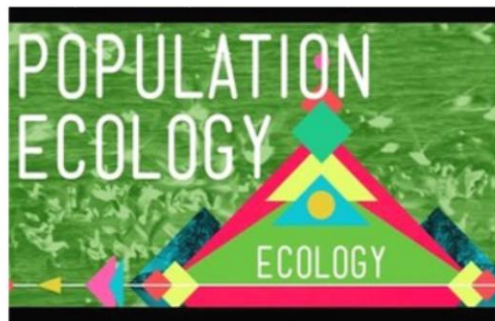

Rating: This title has not yet been rated. ([rate title](#))

Media: Web Link Video

Running Time: 5 min 1 sec

Grades: 6 to Adult

This video from SciShow discusses the question of whether it would be possible, or even wise, to kill all mosquitoes in the world, or perhaps only those that infect humans.

Crash Course Ecology: Population Ecology - The Texas Mosquito Mystery

Rating: This title has not yet been rated. ([rate title](#))

Media: Web Link Video

Running Time: 11 min 53 sec

Grades: 9 to Adult

This irreverent, fast-paced and humorous video from John and Hank Green's Crash Course series discusses population ecology. Topics covered include West Nile virus, population density, dispersion, population growth, fecundity, limiting factors, density dependent and density independent factors, carrying capacity, exponential vs. logistic growth, and the growth rate formula and calculations.
