

LEE COUNTY MOSQUITO AND HYACINTH CONTROL DISTRICTS OFFERING SERVICE LEARNING OPPORTUNITIES!

RESEARCH ASSISTANTS

Lee County Mosquito and Hyacinth Control Districts take pride in our cutting-edge research efforts in the mosquito control operations, aquatic vegetation and water quality fields. Engaged, enthusiastic, energetic, and reliable university students are crucial to maintaining these ongoing research projects.

INSTRUCTIONAL ASSISTANTS

The Lee County Mosquito Education (LCME) program provides environmental education and public health instruction to public, private and charter schools throughout Lee County (in Kindergarten, 5th Grade, 7th Grade and High School Biology & Chemistry classes). Enthusiastic, energetic, and reliable university students are crucial to help us reach the ever-increasing number of students in the county.
